

“ I am the way, the truth and the life.”
Jesus Christ (John 14:6)

Is God Really There?

The natural world we live in whispers softly to us:

"Such intricate design! Do you really think this came about by accident?"

The more science discovers, the more evidence we're given for a highly intelligent Designer.

Does God Really Care?

Natural disasters, illness and suffering lead us to wonder:

"If there is a God, isn't he cruel or uncaring?"

The Bible teaches that God made the world 'very good', with no suffering. Mankind messed it up by choosing to do wrong. But God has since been working his plan to put things right. He even sent his own Son into this world to do so.

Jesus Is the Answer

Jesus, as God's Son, shows us the reality of God's existence. His perfect life, his countless miracles and his rising from the dead all confirm his claims to being God.

Jesus shows us the reality of God's loving care. He healed the sick, comforted those in distress, and promised a glorious life after death to all who follow him.

Will You Follow Him?

We constantly fail to meet God's perfect moral standards, but Jesus died in our place so that we might find forgiveness. In amazing grace, he offers us a place in God's home for ever. But he tells us first to confess to God our wrongdoing, to turn from it, and to follow him.

The Ball is in Your Court
